

Vitamins (Typical) :

Vitamins	Units (ppm)
Thiamine (B1)	8.50
Riboflavin (B2)	28.44
Niacin (B3)	65.32
Pantothenic acid (B5)	79.6
Pyridoxine (B6)	13.36
Choline (B7)	1205.42
Biotin (B8)	2.12
Folic acid (B9)	0.19
Cynacobalamin (B12)	0.003

Minerals (Typical) :

Minerals	Values
Calcium	0.17 %
Phosphorus	0.56 %
Potassium	0.10 %
Magnessium	0.22 %
Sulfur	0.28 %
Sodium	0.03 %
Zinc	31.32 ppm
Selenium	0.02 ppm
Copper	4.42 ppm
Iron	98.10 ppm
Manganese	21.92 ppm
Chromium	1.31ppm

Advantages :

- ❖ Higher survival and growth rate
- ❖ Increase weight gain
- ❖ Improves efficiency of the digestive system
- ❖ Faster digestion and absorption of nutrients
- ❖ Higher feed consumption with better FCR
- ❖ Reduces the pathogenic bacterial loads in gut
- ❖ Enhances immunity and Control stress

Dosages and Application :

Shrimp/Prawns	: 2 to 5 kg / ton
Fish	: 1 to 3 kg / ton
Swine/Piglets	: 2 to 5 kg / ton
Poultry/Cattle	: 1 to 3 kg / ton
Pet foods	: 2 to 5 kg / ton

Application methods :

- ❖ Incorporate with feed

Storage and Caution :

- ❖ Keep in cool and dry place

Shelf Life :

- ❖ 12 Months from production date

Packing :

- ❖ 25 kg & 40 Kg HDPE paper bags with liner.

NUTRIMENTS-MDYTM

(Molasses Dried Yeast)

AQUA, POULTRY & LIVESTOCK NUTRITION

Sunshine Agro Products is established in 2003 at Chennai, Tamilnadu, India. It is the fast growing animal feed additives company offering specialized feed supplements for Aqua, poultry and Livestock nutrition through its intensive field experience, our products has helped the animal feed industry to better improve the profitability.

We believe in furthering traditional knowledge through research applying modern parameters, confirm results in field trials and standardize products for assured quality. The products are developed by clearly defining the problems, understanding concepts of nutrition, animal physiology and field performance.

We have tie up arrangements with few renowned Universities, Veterinary colleges & Research centers for conducting trials which are followed up with various commercial farms in diverse climates and geographical locations (countries) to confirm results.
